FALL OF PORT ARTHUR NOW RUMORED

Native Forces Arming to Overpower Russian Soldiery.

RUSSIANS INVADING NORTHERN KOREA.

Ready at last, Have Crossed the Yalu in Force.

Port Arthur Again Attack.

Tien Tsin, February 29.—Another attack was made on Port Arthur today, according to reports which have just reached here. These reports say that the Japanese fleet began the bombardment of Port Arthur early this morning, and continued it with vigor two hours. The Russian scouting division was driven inside the harbor, and it is said that the cruiser Askold, which was damaged in the first attack was again badly hurt. At least one torpedo boat was sunk and the Novik seriously damaged.

Retvizan Is Beached.

It is also reported that a good part of the Japanese fire was directed against the battleship Retvizan, which lies beached near the harbor entrance, and that she sustained further damage from the Japanese shells. There were no casualties reported on the Japanese fleet, which is still keeping a strict guard over Port Arthur.

Combined Land and Sea Attack.

Reports which as yet cannot be confirmed, tell of the landing of Japanese troops in Liao Tung peninsula, and the impression prevails that there will be a combined land and sea attack on Port Arthur, and if this is not successful, regular siege operations will be begun.

Stormy Weather Hinders Advance.

Che Foo, March 1.—Insistent reports are current to the effect that the Japanese have begun a great movement by land and by sea on the Russian position at Port Arthur. The terrific northeasterly storm with snow which has been raging since yesterday wove no obstacle. According to Japanese information, the stormy weather delayed the plans for the investment of the Russian fortifications, for it has been impossible successfully to manoeuvre small war craft and the building of rafts on the heavy sea.

Troops in Terrible Condition.

New York, March 2.—"Report received here," says a cable to the World from St. Petersburg, "are that the troops along the route to Harbin show a disheartening condition of affairs. A smallpox epidemic is raging in east Siberia, and has spread among the regulars, vaccination being unheard of in the army. Pneumonia and bronchitis are claiming many, and already thousands of men have been rendered unfit for service by frost bites."

Too Good To Be True.

London, March 2.—A rumor was circulated in the lobby of the House of Commons this afternoon that Port Arthur had fallen. The origin of the rumor could not be traced and no confirmation whatever was obtainable.

Russian Land Force.

"Three hundred Russians have moved Augur. There has been no attempt by the Japs as yet to dislodge the during advance guards of the Russians at Augur. How far behind the Russian advance is the main body is not known here but fleeing Koreans declare the invaders are in great force. The Koreans make no effort to check the Russian advance but regard the invaders as desperate enemies."

The De Laval Cream Separators.

98 per cent of the Creameries of America use DE LAVAL SEPARATORS after 20 years experience and trying other makes of machines.

This record should mean something to prospective purchasers.

EUGENE RHIAN, Agent.

War War! War! The Newspapers are Full of war.

While other nations are spilling each other's blood upon the fields of battle we, the people of Canada, are living peacefully at home and enjoying the comforts and luxuries of a peaceful country. Still we have wars in our own land. Not perhaps as bloody as the present strife but still of a great deal of importance. Look, for instance at the

-- War of Competition --

that exists from year to year among all branches of trade and commerce. Some of the contestants are fighting on a disadvantage and some have a large handicap. We are among the latter.

HERE ARE FIVE PLACES WHERE WE HAVE A BIG ADVANTAGE OVER ALL COMPETITION:

1. Our long experience in Alberta. Which has made us thoroughly acquainted with the needs of Albertans.
2. We take advantage of all discounts.
3. We always tell the truth. When we tell you an article is so-and-so you can believe us.
4. We do not ask exorbitant profits
5. Honesty, Civility, Courtesy

Death of G. W. Headley.

Ponoka and district suffered the loss of another estimable citizen in the death of G. W. Headley which occurred last Sunday night after lingering illness extending over the past two years during which time he has been a patient sufferer from paralysis.

George W. Headley was born in Dearborn, Indiana, June 12, 1829. His estate was made his home during his early manhood and until September 15, 1859, at which date he was mustered into the 37th regiment of Indiana Volunteer Infantry Company E, and served as a brave and trustworthy member of his country until April 15, 1864, at which time he was honorably discharged because of disability. After being mustered out of the army, he settled in Illinois, later in Minnesota, and finally at White St. Dakota, at which place he resided for twenty-two years before coming to Alberta a little over two years ago.

During his long and useful life the deceased was a trusted worthy husband and at all times a reliable and estimable citizen, always glad to be in the way of all that tended to the betterment of mankind or the good of the community in which he lived. Of him it may be truly said that the record of his life was peacefully run and a useful and noble career was ended only by the inevitable law of death.

Tomorrow his loss will be felt on the part of his family, for he was a devoted and good father, a kind and loving grandfather, and a true and noble son. All beside in this vicinity except the former whose home is yet in South Dakota. His son and one daughter have preceded him in death. To the surviving relatives are extended the sympathy of a large circle of friends.

The funeral services were held yesterday forenoon by Rev. Perry, and the remains were committed to Forest Home cemetery in charge of members of the Masonic fraternity of which the deceased was an honored and respected brother.

Presbyterian Services.

Presbyterian services for March in the following places, 1st and 3rd Sundays in the Dakota school house at 11 a. m. and at Pigeon Creek at 7 p. m. 2nd and 4th Sundays, Ponoka school house at 11 a. m. Clinch 3:30 p. m.

Locals are scarce this week.

Miss Doris Beck left Tuesday for Farnis, B. C.

Miss Tonia Robinson is serving as clerk in A. Reilly's store.

M. J. Naismith was over from Emerson to attend the Strachan and visit a few days with relatives.

The Royal Hotel has a new call board with ads of several of our business men. The printing was done at this office.

J. K. Lee, general agent of the Federal Life Insurance Co., was looking after business in Ponoka this week.

Lagrippe seems to be making its annual round amongst the villagers this week. W. Garman is quite ill at present with the ailment.

Adolph Shay was down from the Fairy Bank farm this week. He will have a sale on the 30 inst. What he will do is still indefinite even in his own mind.

M. Kimmy and Jas. Rainier were down from Pigeon Creek the last of the week on business in connection with their new school, of which they are trustees. They hope to have a school in operation in the early spring.

T. J. Durkin, our genial merchant tailor contemplates opening up a complete stock of goods for sale shortly. T. J. is an accommodating fellow with whom to do business will no doubt secure a good business.

Cook Myer returned Friday from Buffalo lake, bringing with him about twenty head of his cattle which he will feed here till summer. Cattle he says have done exceedingly well on the range notwithstanding the cold weather.

Rev. Perry returned Saturday from Buffalo lake, where he had been to see Rev. Myers. He found the young man somewhat improved from what his condition had been for several days, although he is yet in very poor health and may be compelled to give up his work here on account of his physical condition.

Bills are out for an auction by D. N. Kilroy, ten miles west of town on the 16th. Mr. Kilroy is going into ranching on a large scale with his brother in Montana. He is not leaving Alberta because he is sick of the country or anything of that kind but only because he has a good thing in sight where he is going.

W. M. Jones came down town Saturday for the first time since their house was quarantined at the time their little girl took the scarlet fever. The house was thoroughly fumigated before any of the occupants ventured out or any one else was allowed in. Mr. Jones and wife were exceptionally careful in taking all precautions against any spread of the disease from their house and are to be commended for being so.

A good many remarks are heard about the number of auction sales that are being held and some tell us that people are leaving Alberta by the scores. It is true, there are and will be a number of sales this spring but it is not the same true of any new country? It is also true that a good many of these same people who have left Alberta are now wishing themselves back and a good many are really coming back since they have found by direct experience that they can do a great deal more in places where they imagined they could see before than a smoother road to success than they can in Alberta. For men with abundant means there may be places with more of the luxuries of life but for the man with small or moderate means there are few places of greater opportunity.

Farmers' Association Meeting.

A Farmers Association meeting was held at Rabbit Hill school house west of Strathcona on Tuesday night February 23, it was well attended and very enthusiastic. Mr. P. Makopiepski dwelt on the need of unity among farmers and showed the work done by the Association in Ontario and the States. Col. Gregory, the farmers candidate followed on the political aspect of the situation urging upon the Government the great need of loaning money to the farmers and workmen in the west at a low rate of interest say three and a half per cent, showing the great saving it would be to the farmers and the country generally. W. R. Ball, of Edmonton followed on Government ownership of railways and contrasted the freight rates charged per 1000 miles by Intercolonial railways as compared to lines held by Companies much to the disadvantage of the big Companies, amounting in many cases to more than double charged by the G. T. R.—C. P. R. and other roads as compared with the Government owned railroad. Mr. Cook closed the meeting by an appeal to those present to support the Farmers' candidate at the polls when the election took place. The delegation had no trouble at Rabbit Hill of finding a chairman in the person of Mr. Scribner.—Communicated.

Why He Was Glad.

The following story was recently told of an Ellendale married couple for which the husband had been accustomed to do all the buying. The husband finally had so much business on hand that it became necessary to turn the buying over to the wife. One morning he told her to get a shin bone to make some soup. She asked what a shin bone was and the husband lifted his eyebrows and indicated that part of the anatomy. When the wife arrived at the butcher shop she had forgotten the name of the bone she wanted, and to inform the butcher, had to lift her skirts and show her shins. When she returned home she told her husband of her forgetfulness and how she had to show her shins to let the butcher know what she wanted. The husband heaved a tired sigh and said, "Well my dear, I am glad I did not tell you to get a rumm rumm."
